

2017/18 Midweek Bankers Summary

This season 22 players took part in a Bankers competition that comprised more rounds than Midweek Pennant itself. Participants were awarded 1pt for each bankers match played plus 2pts for a match win and 1pt for a draw. Credit was also given for pennant match wins and draws but not for attendance as that's not really discretionary. Club members who participated in at least 4 bankers matches were eligible to win either of two season end prizes. One prize was for the most total points gained. The other was for the highest win/draw points average. The former was won by Jan and the latter by Bev – congratulations to both of them.
