

## 2018/19 Midweek Bankers Summary

24 players took part in at least one Bankers match this season. With sufficient players to hold a bankers match nearly every round it was possible to run a season long competition. Points were awarded based on shot difference (higher shot difference = more points, including points for close losses). Two season end prizes were awarded. One was for the most points gained from a player's best 8 games (although no one played more than 8 so that limit was moot). The other prize was for the highest points average from 5 or more games. Congratulations to Bob who won the most points prize and to Jan who won the points average prize.

### Midweek Bankers 2018/19 Season Final Standings

Player	Subtot Points	TotPts /Game	Total Points	No. of Games
Quayle.B	31	3.88	31	8
